- Removable filter on condenser for easy cleaning.

egg station / drop-in unit shown built into griddle stand (not included)

With Eagle's new Refrigerated Egg Station, you will no longer have to scramble around the kitchen. The all-stainless steel construction houses an egg compartment with removable egg basket which holds up to five egg flats—30 eggs per flat, 150 eggs total—and a lift-up door that conveniently stays open. Heat shields on each side allow for use in a cook's line, and are easily removable for cleaning. With features including automatic defrost system, electronic thermostatic control, and foamed-in-place insulation, this unit is exactly what your kitchen needs.
